

The American Institute of Architects Continuing Education System

AIA/CES Registered Provider Program Summary

Provider: The Garland Company, Inc.	Length: 2 hour
Program #: 004 SS	Credits: 2 AIA/CES Learning Units
Program: Design Applications for Standing Seam Metal Roofs	HSW Credit: Yes

METAL

Course Description:	An overview on standing seam metal roofs used in the commercial roofing market. What's the best fit for your location?
Learning Objectives:	Participants will have a thorough understanding of the basic principals to follow when preparing a specification for standing seam metal roofs. Also, some basics of wind uplift, material differences, paint finishes, etc. will be discussed.
How Taught:	A Powerpoint or slide presentation with group exercises and discussion. Planned Q&A throughout presentation.
A/V Requirements:	Electrical outlets and a screen for the Powerpoint or slide presentation. In some cases a projector is also required. For group settings, one on one presentations can be viewed on laptop.
Who Should Attend:	Architects, specifiers, design professionals and, building owners in the commercial/industrial building market.
Cost:	There is no cost to bring this program into your firm or chapter.
For more information:	Contact you local Garland Representative.
